

RO.EMS.0704

Certificate of Registration

RS Cert – Romanian Certification Systems
(by S.C. Premium Alpha Consulting S.R.L.) certifies the organization:
SOUTH EUROPEAN CONSTRUCTION GROUP S.R.L.

Professional Residence: 117710 Sat Ștefan Cel Mare, Com. Ștefan Cel Mare, Str. Grigore Moisil,
Nr. 349, Jud. Argeș, România

has implemented and maintains an Environmental Management System in accordance with the requirements of:

ISO 14001:2015 / SR EN ISO 14001:2015

The domains of activity covered by this certificate are:

Residential and non-residential building construction works, modifications and restorations of buildings and historical monuments. Road construction works. Bridge construction works. Utility projects for fluid construction works - water supply networks, water treatment plants, branches for drinking water and industrial water; sewage networks and sewage treatment plants; distribution networks and primary heat transfer and secondary heat agent; distribution networks and natural gas connections reduced and medium pressure. Utility projects for electrical construction works - open-air underground electrical lines of medium voltage 0.4 - 20 kV and substations of maximum 20 kV. Hydro-technical constructions. Land preparation works - land improvement, restoration of green spaces. Electrical installation works related to buildings - interior electrical installations for civil and industrial constructions, open-air and underground branches of nominal voltage of maximum 0.4 kV; Interior installation works related to buildings - sanitary installations; systems and installations for limiting and extinguishing fires; internal heat systems and thermal power stations; natural gas utilization installations in pressure regime ≤ 6 bar; ventilation and climatization installations; thermal power station services. Thermal insulation works. Special construction works - mounting of metal constructions and execution of cleanrooms; waterproofing and anticorrosive insulation; swimming pools and artesian fountains. Architectural activities - plans and projects for buildings. Engineering activities and related technical consultancy - project management; design of branches and electrical installations of low voltage < 0.4 kV. Provisions of laboratory services for buildings and installations - Testing of low and medium voltage electrical equipment and installations; testing and sampling of plumbing - IS profile; testing and sampling of heating systems - II profile; testing and sampling of natural gases installations - IGN profiles; testing and sampling of machinery and electrical appliances - IAE profile; testing and sampling of ventilation and air conditioning system - IVC profile; testing cathodic protection - PC profile; checking fire protection systems - PCI profile; checking anti-corrosion protection in pipes and metal confections.
